Avenza Releases Geographic Imager 6.8 for Adobe Photoshop

Toronto, ON, May 15, 2024

Avenza Systems Inc., producers of the Avenza Maps® app for mobile devices and geospatial extensions for Adobe Creative Cloud®, including MAPublisher® for Adobe Illustrator®, is pleased to announce the release of Geographic Imager® version 6.8 for Adobe Photoshop®. This version introduces the new Export Contours tool, official compatibility with macOS Sonoma (version 14), and also includes several performance enhancements and bug fixes.

Geographic Imager for Adobe Photoshop delivers an all-encompassing solution to import, edit, and export geospatial images such as aerial and satellite imagery. Work with digital elevation models, GeoTIFFs, and other popular GIS image formats, using Adobe Photoshop features such as transparencies, filters, cropping, and image adjustments, while maintaining georeferencing and support for hundreds of coordinate systems and projections.

New features for Geographic Imager v6.8 for Adobe Photoshop include:

- **Export Contours tool:** The new Export Contours tool allows users to input raster elevation data to output vector contour lines that can be exported for use in MAPublisher.
- **macOS Sonoma compatibility:** Geographic Imager officially supports the new macOS Sonoma (version 14) update.
- **Additional performance enhancements and bug fixes**

Users require a valid Adobe Creative Cloud subscription and a compatible operating system to utilize the improvements and enhancements offered in Geographic Imager v6.8. For questions and information on how compatibility requirements may affect your organization, please contact our [Support Centre](#).

Geographic Imager v6.8 is available immediately and free of charge to all current Geographic Imager Maintenance Program members and starts at US\$399 for non-maintenance upgrades. New fixed licenses start at US\$859. Geographic Imager Basic Edition licenses start at US\$129. Academic, floating, and volume license pricing is also available.
