MapTiler and Avenza Announce Partnership

Toronto, ON, March 24, 2025

We are excited to announce a strategic partnership between MapTiler and Avenza, two digital mapping and GIS technology leaders. This collaboration combines MapTiler's powerful map rendering and customization capabilities with Avenza's industry-leading GIS solutions for mobile and desktop users. Together, we will revolutionize how businesses, organizations, and individuals interact with and utilize geospatial data.

Why This Partnership Matters

The demand for high-quality, offline-accessible, customizable maps is greater than ever. Professionals in urban planning, forestry, emergency response, and tourism require reliable mapping tools that offer precision, flexibility, and ease of use. By joining forces, MapTiler and Avenza will provide a seamless experience for users who rely on geospatial data for critical decision-making.

What This Means for Users

With this partnership, Avenza Maps and MAPublisher users will access enhanced mapping solutions powered by MapTiler's advanced technology. Key benefits include:

- **High-Quality Custom Maps** – Access beautifully rendered, fully customizable maps to fit specific needs.
- **Seamless Integration** – Effortlessly integrate MapTiler's mapping solutions with Avenza's GIS tools, improving workflows and efficiency.
- **Enhanced Offline Capabilities**: Work confidently in remote areas with improved offline map access and data management.
- **Greater Flexibility** – Leverage MapTiler's cloud and on-premise solutions with Avenza's robust mobile and desktop applications.

Looking Ahead

This partnership is just the beginning. MapTiler and Avenza are committed to continuously innovating and delivering top-tier mapping solutions for various industries. Users can expect deeper integrations, new features, and expanded functionality in the coming months to enhance their mapping experience.

Stay tuned for updates as we embark on this exciting journey together. We can't wait to see how our users leverage these new capabilities to push the boundaries of digital mapping!
